Le Corbusier, the father of minimalist architecture

Charles-Édouard Jeanneret, more **commonly** known as Le Corbusier, was a Swiss designer, artist, author, city planner, and most notably a creator of is now known as 'modern architecture'. He is without a doubt one of the most creative and controversial architects of the 20th century. In his architecture, he pioneered the use of steel and reinforced concrete as an aesthetic, the influence of can still be seen.

Le Corbusier began his career as a talented watchmaker, but before long he had his talents to bear on the world of architecture. many architects of his generation, Le Corbusier also had little in the way of architectural training. But what he did have was a vision of how modern industrial materials could be used to make homes that were both functional and beautiful, a vision which stood in
